## TRANSITION TO COLLEGE

### *Mastering the Steps for a Seamless Transition to College*

Making the transition from high school to college is an enormous change in a student's life. Most freshmen college students are not well prepared to handle the stresses of being on their own for the first time in their lives: living in a new place--with a stranger (your new roommate), homesickness, heightened academic responsibilities and coping with dangerous activities such as binge drinking/drugs, and sexual experimentation. This workshop holds an open discussion about these stressors and more. It will engage students to talk openly about the issues, learn ways to positively assimilate and understand the dangers and how to respond to peer pressure.

**Participation:** *High School graduates headed to college* **Duration:** *One-night commitment (1.5 hours)* **Cost:** *Free*

Wednesday, July 19 or August 16 @ 6:30pm-8:00pm
